

Dear Parents/Carers

Information on How to Wear and Remove Face Coverings

Who should NOT use cloth face coverings: Face coverings do not need to be used by children under the age of 11 or those who may find it difficult to manage them correctly. For example, primary age children unassisted, or those with respiratory conditions.

Wear your Face Covering Correctly

- Wash your hands before putting on your face covering
- Put it over your nose and mouth and secure it under your chin
- Try to fit it snugly against the sides of your face
- Make sure you can breathe easily
- Wear a face covering that covers your nose and mouth
- Wear a face covering correctly for maximum protection
- Don't put the face covering around your neck or up on your forehead
- After putting on, don't touch the face covering, and, if you do, wash your hands or use hand sanitiser to disinfect
- Wear your face covering if travelling on public or home/school transport

Take Off Your Face Covering Carefully

- Untie the strings behind your head or stretch the ear loops
- Handle only by the ear loops or ties
- Fold outside corners together
- If the face covering is disposable - place in the covered bin provided by the school
- If the face covering is reusable - place covering in a sealed, protective bag on arriving at school
- Be careful not to touch your eyes, nose, and mouth when removing and wash hands immediately after removing
- Wash the reusable face covering every day on arriving home by placing straight into the washing machine on removal

Yours faithfully
